Dear Friends,

For over 23 years, AANE has worked to build an inclusive community that is now home to more than 45,000 people. This past year has been a period of unprecedented growth for our organization, made possible by the partnership and support of community members like you.

The geographic reach of our programs and services has broadened to where it is now commonplace for our staff to hear from people throughout the United States and the world. These individuals, family members, and professionals seek information, education, community, support, and advocacy.

Through the power of word of mouth, the internet, and our community partnerships, more and more individuals with Asperger/autism profiles -- and those they live and work with -- are being directed to AANE for the help they have been unable to find anywhere else. Our expansion to the New York area this year, coupled with the new possibilities brought on by our increased use of technology, enables us to confidently say that AANE is now an organization with a national presence and global awareness.

We are proud to have established this presence by:

- Responding to our community members’ ideas and input with creative, innovative, and high-quality support for people of all ages (including underserved older adults);
- Recognizing that people on the autism spectrum may share a common cluster of traits, while respecting each person as an individual with a unique set of skills and challenges;
- Developing pioneering expertise in specific subsets of the Asperger/autism community, including neurodiverse couples, women and girls, and LGBTQ+ individuals;
- Providing affordable, individualized, expert guidance to anyone who contacts us seeking information, referrals, and support;
- Living our values; approximately 25% of both our staff and board members are individuals on the autism spectrum.

Thank you for your continued support of our work and for helping us ensure that the AANE community is a welcoming place for all. We look forward to partnering with you again this coming year as we continue to build our community and empower thousands of individuals and families to build meaningful and connected lives.

With appreciation,

Dania Jekel, MSW
The Asperger/Autism Network (AANE) works with individuals, families, and professionals to help people with Asperger Syndrome and similar autism spectrum profiles build meaningful, connected lives. We do this by providing information, education, community, support, and advocacy -- all in an atmosphere of validation and respect.
New Initiatives

New York Expansion

In June 2019, AANE expanded by joining forces with Asperger Syndrome and High Functioning Autism Association (AHA), a like-minded non-profit organization with offices in Manhattan and Long Island. For more than 30 years, under the leadership of Pat Schissel, AHA had been an important resource in the Asperger/autism community and a frequent collaborator with AANE. Combining the two organizations enables AANE to grow and innovate to better serve the Asperger/autism community and thoughtfully expand its programming into the NYC region. All programs and services offered by AHA will continue, and AHA will operate under the AANE name.

LifeNet Independent Living Program

AANE launched a new case management service called LifeNet in January 2019 with an initial cohort of 20 clients. This is a private pay, independent living support program for adults with Asperger or similar autism spectrum profiles. LifeNet is designed to address questions like:

“Who will support our adult child when we’re gone?”
– Parent

“How will I get the support I need to live on my own?”
– Adult

LifeNet offers peace of mind that an adult on the spectrum will be supported as they navigate adulthood by a devoted team who understands them. LifeNet is currently available only to clients who live in the Greater Boston area. We plan to implement this program in the New York City area in 2020.
Our staff fields more than 275 phone and email inquiries each month from adults on the spectrum, family members, and professionals seeking information about resources and services.

**Information**

**Information and Referral Consultations**

Our staff fields more than 275 phone and email inquiries each month from adults on the spectrum, family members, and professionals seeking information about resources and services.

**Website**

More than 500,000 individual users from around the world visited the AANE website in FY19.

**Social Media**

AANE’s Facebook page has 19,000+ followers, including more than 2,000+ new followers over the past year.

Our YouTube channel has 2,150 subscribers, and our Girls and Autism video has been viewed over 25,000 times.
Elsa Abele Training Center

Elsa Abele, a formative influence in the autism and social pragmatics community, was instrumental in helping AANE fulfill its mission. Elsa’s leadership in the autism field, coupled with her love for education, inspired AANE to honor her legacy by dedicating its training space in her name. AANE’s vision was to transform the organization’s existing training space into the Elsa Abele Training Center, equipped with state-of-the-art audio and video technology and new furniture. Through the generosity of individuals and families who knew, worked with, and loved Elsa, AANE is now able to host workshops, seminars, and other types of training events that are comfortable for all AANE community members.

Professional Trainings

Launched in September 2018, Neurology Matters in Couples Therapy is a comprehensive online training course that teaches therapists how to work effectively with neurodiverse couples. To our knowledge, this is the only training of its kind anywhere in the world.

AsperCoach Training, modeled on our very successful LifeMAP coaching program, is designed for professionals practicing outside of Massachusetts and New Hampshire who seek instruction in coaching individuals with Asperger/autism profiles.

AANE is contracted by the Massachusetts Department of Elementary and Secondary Education to allow attendees of its Autism Professional Development Institutes for Educators to be eligible to receive continuing education credits.
Instructional programming for adults, families, and professionals is offered at our office, in the community, and online. Over 1,200 people participated in AANE webinars this past year.

Recent in-person offerings included:

- Perspectives on College Life: A Panel Discussion
- Making and Keeping Friends
- How to File a Tax Return
- Understanding Credit Reports and Managing Debt
- Asperger’s/Autism 101: A Workshop for Parents of Newly Diagnosed Children/Teens

Topics of recent webinars included:

- Strengthening Family Relationships
- Driving and Asperger’s/Autism
- How to Talk to Your Healthcare Provider
- Executive Functioning

AANE’s August 2018 conference for educators, parents, and social workers was presented in partnership with Autism Consultant Kathy Oehler, MS, CCC-SLP, and Occupational Therapist Cheryl Boucher MS, OTR, co-authors of “I Hate to Write!”: Tips for Helping Students with Autism Spectrum and Related Disorders Increase Achievement, Meet Academic Standards, and Become Happy, Successful Writers.

The Annual Daniel W. Rosenn Connections Conference in October 2018 featured a full-day presentation by Dr. Tony Attwood about two topics of great importance and relevance to our community: “The Origins of the Special Interests and the Use and Misuse of the Interest” & “Independence and Interdependence.”

The Annual Jody Acford Benefits Conference in February 2019 offered information about public and private supports to help individuals and family members with Asperger/autism profiles navigate adult life in Massachusetts.

AANE’s Spring 2019 conference explored the issues of intimacy, dating, and sexuality and offered strategies for establishing and maintaining relationships for those with autism or related profiles. It featured first-person accounts, panel discussions, and presentations by Dr. Isabelle Hénault, M.A., Ph.D. and Karen Lean.

To see a group of young adults on the autism spectrum who have all continued to make progress towards their degrees - despite bumps in the road (roommate challenges, changing majors, changing schools) is really inspirational to parents.

- AANE Parent
Social and Interest Groups

These groups are designed so that a limited number of members (typically 12 or less) meet for a series of 6 or 8 sessions and participate in activities focused on a shared interest. They are intended to create a tight-knit community of interest that may flourish even after the meetings end.

In FY19, AANE:

- Partnered with the Boston Public Library to host a new book club for adults on the autism spectrum
- Partnered with Berklee College of Music to offer group music lessons for adults
- Partnered with the Puppet Showplace Theater for adults to produce a show with full-size puppets suitable for both a teen and adult audience
- Created a Trivia Team Interest Series for adults to showcase their knowledge/skills; with “in-house” sessions at the AANE office and “out in the community” at local bars
- Created a Dungeons & Dragons Interest Series for adults

Family and Social Events

Moms’ Night Out is a regular social event for mothers (and grandmothers) of children, adolescents, and adults on the autism spectrum. It is an opportunity for participants to relax in a fun, non-judgmental atmosphere with others who understand.

Fathers’ Group meets once per month and is an opportunity for fathers to share their experiences, support one another, and acquire tools to parent their children more confidently.

AANE’s Annual Adult BBQ is an opportunity for adults on the spectrum to enjoy an assortment of delicious summer treats and outdoor games and activities with adult family members and friends.

Many people get a diagnosis. I got a support community, an avocation, a life purpose, and a second family.

- AANE Adult
AANE Uncommon Gala 2019

AANE was proud to hold the first ever autism-friendly gala on April 27, 2019 at the Charles Hotel in Cambridge, MA. Modifications to the program, communication methods, and physical space were made to better suit the sensory, social, and emotional needs of people on the autism spectrum. The program featured first-person stories of adults and family members and ended with an unforgettable performance by legendary stand up comedian Paula Poundstone. Collectively, the event raised more than $300,000.

Rodman Ride for Kids

The Rodman Ride for Kids, an umbrella matching gift charity, is the #1 single-day athletic fundraiser in the nation supporting at-risk youth. AANE is one of 40 Affiliated Charities that participate in the Rodman Ride each September. In 2018, our riders, volunteers, and donors helped us raise over $57,000 to support AANE programs and services.

AANE has been instrumental to the emotional well being of my family and has helped in so many ways. Practicing for the Ride provided a great opportunity for my boys and me to connect and spend time together. We all felt a great sense of accomplishment after the ride - raising money for a great cause on one hand and the physical challenge on the other. It was a very rewarding experience all around.

- AANE Parent
Support Groups

AANE offers more than 50 different groups of varying sizes that meet weekly, bi-weekly, or monthly, either in-person or online.

**FY19 groups included:**

- Adults
- Young Adults
- Over 50
- Women
- Gay Men
- Gender Identity/Autism
- Parents of Children/Teens
- Parents of Transition Age Youth
- Parents of Adults

It feels so validating to talk with a group that immediately understands (or has experienced) exactly whatever seemingly unusual or difficult issues we’re dealing with in regards to my son.

- AANE Parent

Spanish-speaking Services

We are proud to offer group and individualized support services in both English and Spanish. We have a dedicated staff member who facilitates a Spanish-speaking support group for parents and parent coaching sessions for individualized support.

“I am no longer in the middle of strangers.”

- AANE Adult
Coaching

*LifeMAP Coaching* is an intensive, practical, and highly individualized life coaching program that helps clients use their strengths to identify and overcome particular barriers they face. Goals range from securing employment to increasing independence and improving quality of life.

*Neurodiverse Couples Coaching* includes learning to problem solve, develop coping strategies, and build skills to improve a couple’s relationship when one or more partners is on the autism spectrum.

*Parent Coaching* provides individualized problem solving and skill-building for parents of children, teens, or adults on the spectrum to address a child and family’s unique needs.

*InterviewPREP* is a 10-session intensive job interview training program for adults on the spectrum. Clients participate in a series of actual interviews with business professionals who provide structured feedback on the client’s performance, interspersed with coaching to review feedback and prepare for the next interview.

Consultations

AANE, in partnership with Autism Housing Pathways President Cathy Boyle, provides individualized Housing Consultations to address each client’s unique housing needs.

AANE’s Child and Teen Services team offers personal and professional expertise to guide parents through the Individualized Education Program (IEP) process and other efforts to ensure that their child’s unique needs are met.

AANE, in partnership with Dr. Jane Thierfeld Brown, offers College Consultations for teens and their families as they prepare for higher education.

Our conversation provided me with new avenues to explore for my family member and steps to take. It also confirmed for me that I am going in the right direction and my family is not alone in this journey.

- AANE Parent
Legislative Advocacy

AANE seeks to remove barriers for the Asperger/autism community and supports efforts to guide public policy collaboratively at local, state, and national levels. Our strength in advocacy derives from listening to our community and partnering with other organizations to affect change.

This year we helped advocate for increasing funding for the Autism Omnibus Act of Massachusetts, which was passed in 2014, but has never been fully funded.

Individual/Self-Advocacy

AANE is committed to helping individuals and families become effective self-advocates in all aspects of daily life. Individualized programs like LifeMAP, LifeNet, and Parent Coaching all provide assistance with individual advocacy.

This past year we facilitated a 10-week interactive Employment Seminar to help employed adults improve their workplace communication skills. Our annual Jody Acford Benefits Conference, which helps adults and family members learn how to apply for public benefits, sells out every year.
